# NIKHILESH CHANNAPPGOL

Systems Engineer - Full Stack Developer -  Angular Developer

✉ nikhileshchannappgol@gmail.com   📞 +91 7259693096   📍 Gulbarga

## OBJECTIVE

I am an experienced Angular Developer with 1+ year of experience in developing high-availability enterprise services and web applications using TypeScript and core JavaScript.

My goal is to take up a challenging career that allows me to utilize my skills and knowledge to help a company achieve its goals and objectives. I am seeking a company that values high-quality design and professionalism and offers opportunities for personal growth and development.

## WORK EXPERIENCE

**INFOSYS LIMITED**
Nov 2021 - Present

● *Systems Engineer - Angular Developer*

Successfully implemented a user-friendly AngularJS application from scratch for a client-based project, meeting all the requirements and following the project guidelines.and developed reusable components and services to optimize the application's performance and maintainability.Integrated the application with RESTful APIs and backend services to deliver a seamless user experience.

Deployed the application to production and conducted user acceptance testing to verify its functionality and performance.

## PROJECTS

Quiz Application

The application has a login and registration page, and allows users to select a topic to take a quiz on. After selecting a topic, the user is taken to a page with questions. The quiz results are shown immediately after completion. The admin can view the number of users who took the quiz and their results in a graph.

The front end is built using Angular CLI, and the data source is Google Firebase.
